SUMMARY

Driven to build secure and scalable cloud solutions, I am a Cloud Developer and Full-Stack Software Engineer with hands-on experience in Java, Spring Boot, Node.js, Express, NestJS, Next.js, React, TypeScript, and RESTful API development. I have practical experience deploying and managing applications on AWS using EC2, S3, RDS, IAM, and Elastic Beanstalk, as well as containerizing applications with Docker and implementing CI/CD pipelines using GitHub Actions. Recently graduated as an AWS Cloud Developer, I enjoy backend development, cloud infrastructure, and DevOps while continuously expanding my full-stack development skills. I am seeking a junior Cloud, Backend, or Full-Stack Developer role where I can contribute to real-world projects, collaborate with experienced teams, and continue growing as a software engineer.

TECHNICAL SKILLS

Programming Languages & Frameworks:

Java • JavaScript • TypeScript • Spring Boot • Node.js • Express.js • NestJS • React • Next.js • REST APIs

Frontend Development:

HTML5 • CSS3 • React • Bootstrap • Next.js

Database Management

SQL • MySQL • PostgreSQL • NoSQL: MongoDB

Development Tools:

IntelliJ IDEA • Visual Studio Code • GitHub, Maven • DBBeaver • Postman

DevOps & CI/CD:

CI/CD • Pipelines • Docker • Docker Compose • GitHub Actions • Git • Linux

Professional Skills:

Agile teamwork • Problem solving • Communication, Customer focus • Continuous learning

Cloud Platforms (AWS):

EC2 • S3 • RDS • Lambda • Elastic Beanstalk • CodePipeline • IAM • AWS CLI

EXPERIENCE

Cloud Developer Intern

2025 - 2026

Suwebatu AB | Stockholm, Sweden

- Contributed to the development of cloud-native web applications and backend services.
- Developed and tested RESTful APIs using NestJS and PostgreSQL.
- Assisted with cloud deployment and system integration using AWS, Render, and Vercel.
- Collaborated using Git, Docker, GitHub Actions, and Agile development practices.
- Troubleshooted, tested, and improved application functionality and deployment workflows.

IT Support Technician (Remote)

2026

Teceze AB | Stockholm, Sweden

- Provided remote IT support and technical troubleshooting for end users.
- Diagnosed and resolved hardware, software, and network-related issues.
- Assisted users with system configuration and technical support requests.
- Delivered professional customer support while ensuring timely issue resolution.

Taxi Fleet Operations & Customer Service Self-Employed

2019-2026

Mayor Transport | Stockholm

- Delivered exceptional customer service, prioritizing passenger safety and resolving complaints
- Managed company finances including daily budgeting, accounting, and expense tracking
- Conducted regular vehicle inspections and maintenance to ensure fleet roadworthiness

PROJECTS & DEPLOYMENTS

Mini-DPS Client Portal | Next.js, NestJS, PostgreSQL, Docker, AWS, GitHub Actions, CI/CD

- Designed and developed a cloud-native full-stack client portal using Next.js and NestJS.
- Built REST APIs with PostgreSQL and TypeORM, supporting project management and service requests.
- Containerized the application with Docker and implemented CI/CD using GitHub Actions.
- Deployed the frontend on AWS S3, the backend on AWS EC2, and the database on AWS RDS.
- GitHub: <https://github.com/Elijah71176/mini-dps>

Student Management System | Java, Spring Boot, MySQL, AWS Elastic Beanstalk

- Developed a full-stack application with CRUD operations for managing student records.
- Deployed the application on AWS Elastic Beanstalk as part of a school group project.
- GitHub Repository: <https://github.com/Elijah71176/group-project>

Technical Project – Web Application | AWS, CI/CD

- Collaborated in a team to build and deploy a web application using AWS services.
- Contributed to the development workflow and CI/CD practices.
- GitHub Repository: <https://github.com/Elijah71176/TekniskProjekt>

EDUCATION

Jensen yrkeshögskola - Cloud Developer (AWS) – EQF Level 5

2024 - 2026

Relevant Areas of Study

- Object-Oriented Programming (Java, Spring Boot, Jakarta EE)
- Cloud Computing (AWS EC2, S3, RDS, IAM, Lambda, Elastic Beanstalk)
- Database Design (MySQL, PostgreSQL, MongoDB)
- DevOps & CI/CD (Docker, GitHub Actions, CodePipeline)
- IT Security (IAM, encryption, risk management)

ADDITIONAL INFORMATION

- **Languages:** English/Swedish (Fluent, Professional proficiency)
- **License:** B, C1, C.
